

INFORMATION ON ROAD WORKS IN EUROPARK SINT-NIKLAAS, Belgium

Road construction works in Europark Sint-Niklaas are marked in red. During the construction period from **03/08/2010 till end of September 2010**, Guylian will be accessible via the blue route. This route forms a loop to avoid traffic jams. We recommend to access Guylian through the back entrance (via the fence at the railway) and to leave via Europark Oost. One-way traffic will be installed at the Guylian premises. Trucks are requested to check-in at the reception before loading and unloading.
